STEP - 1: Create a Quicklab account

STEP - 2: Fill the enrollment form for “GoogleCloudReady facilitator program”

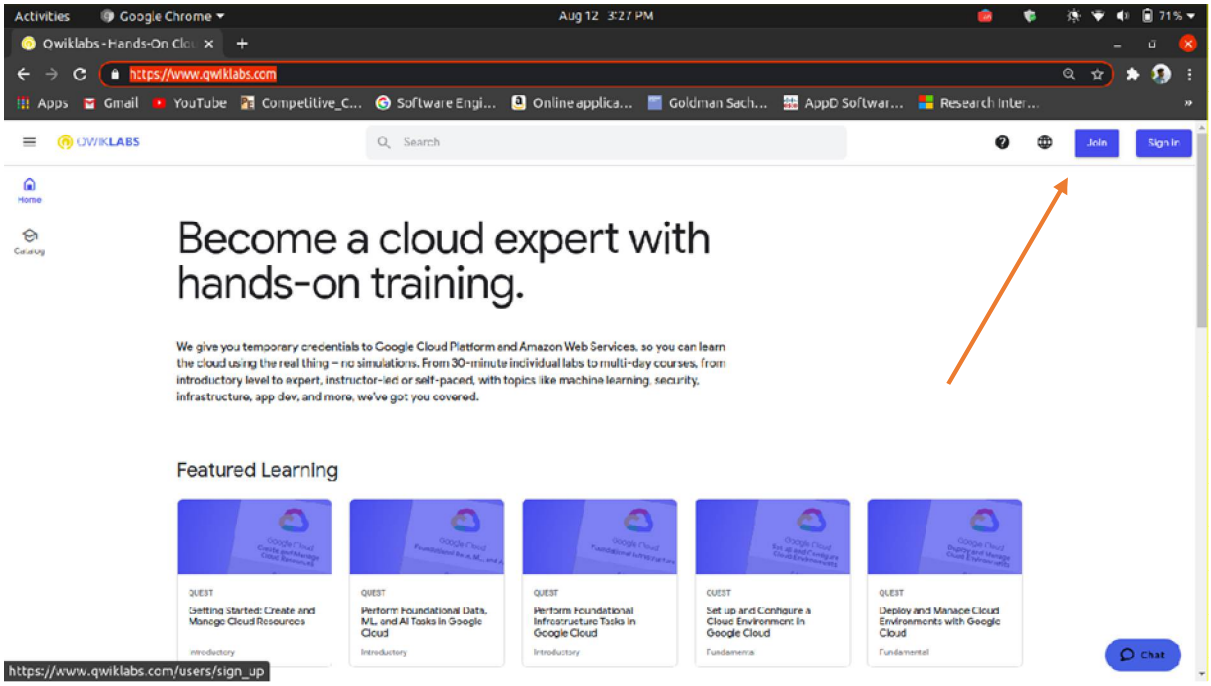
STEP 3: Get 500 Quicklab credits

STEP – 1:
Create a Quicklab account

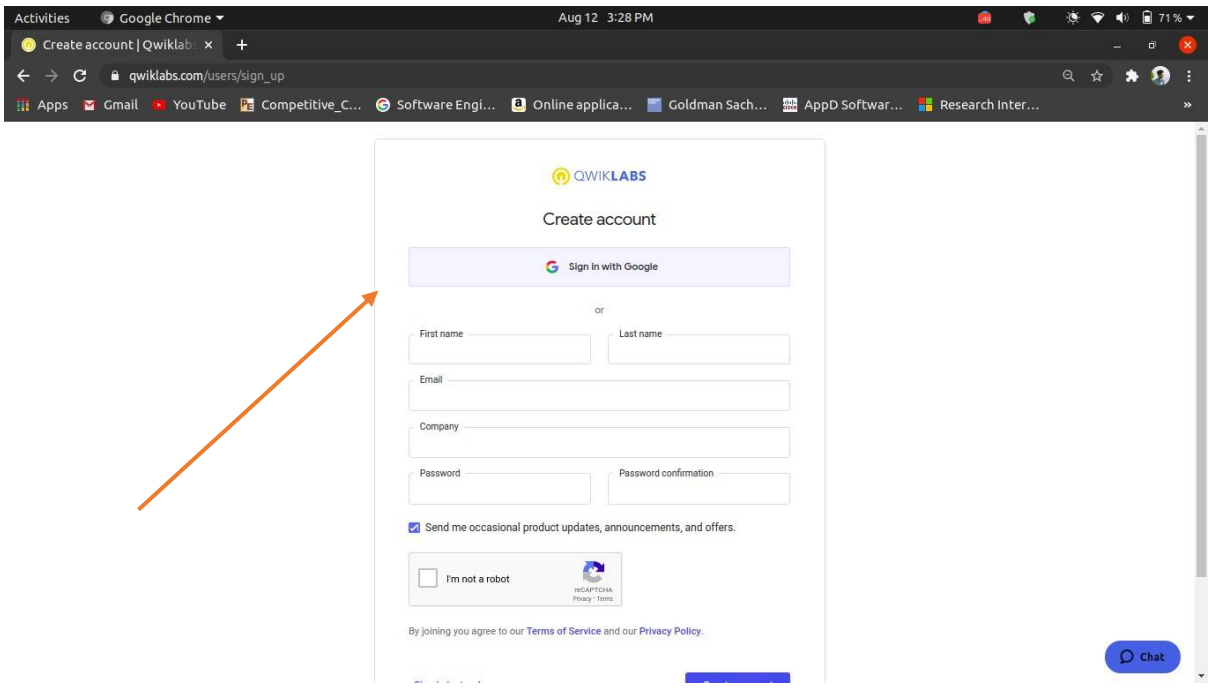
[Important: Please follow these instructions in PC**]**

Step 1: Create a Qwicklabs account using your personal email id
https://www.qwiklabs.com/

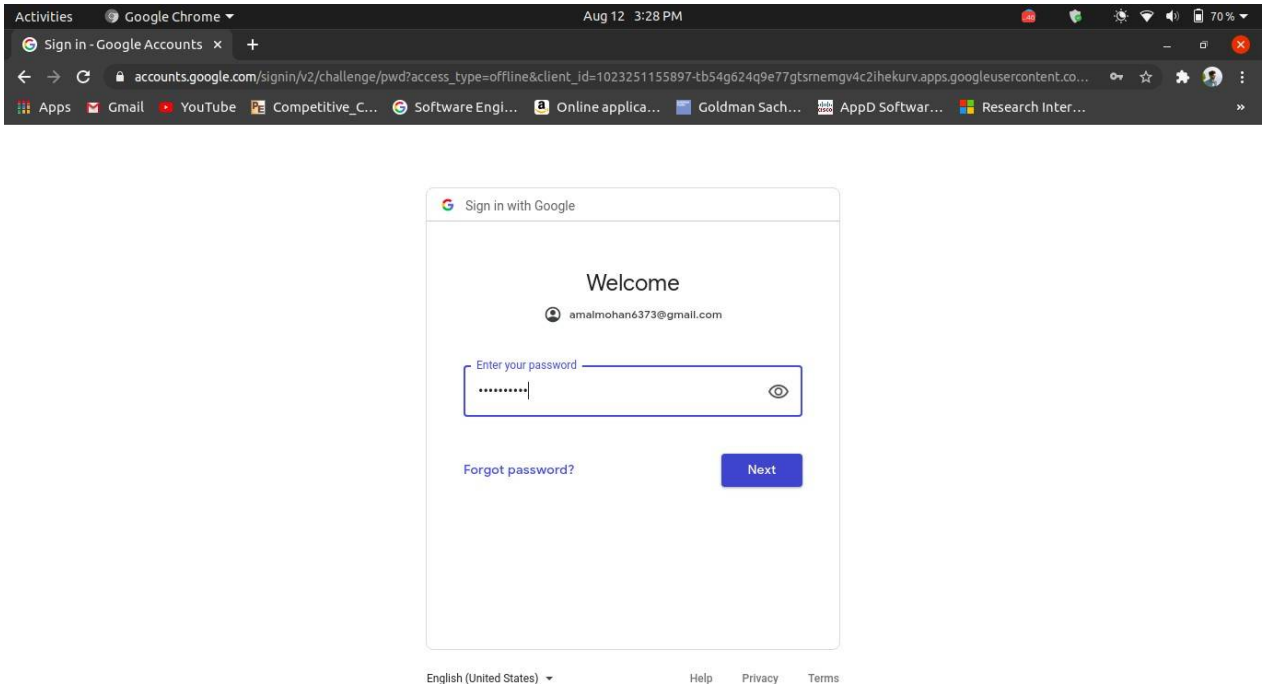
Click “Join” on top right corner



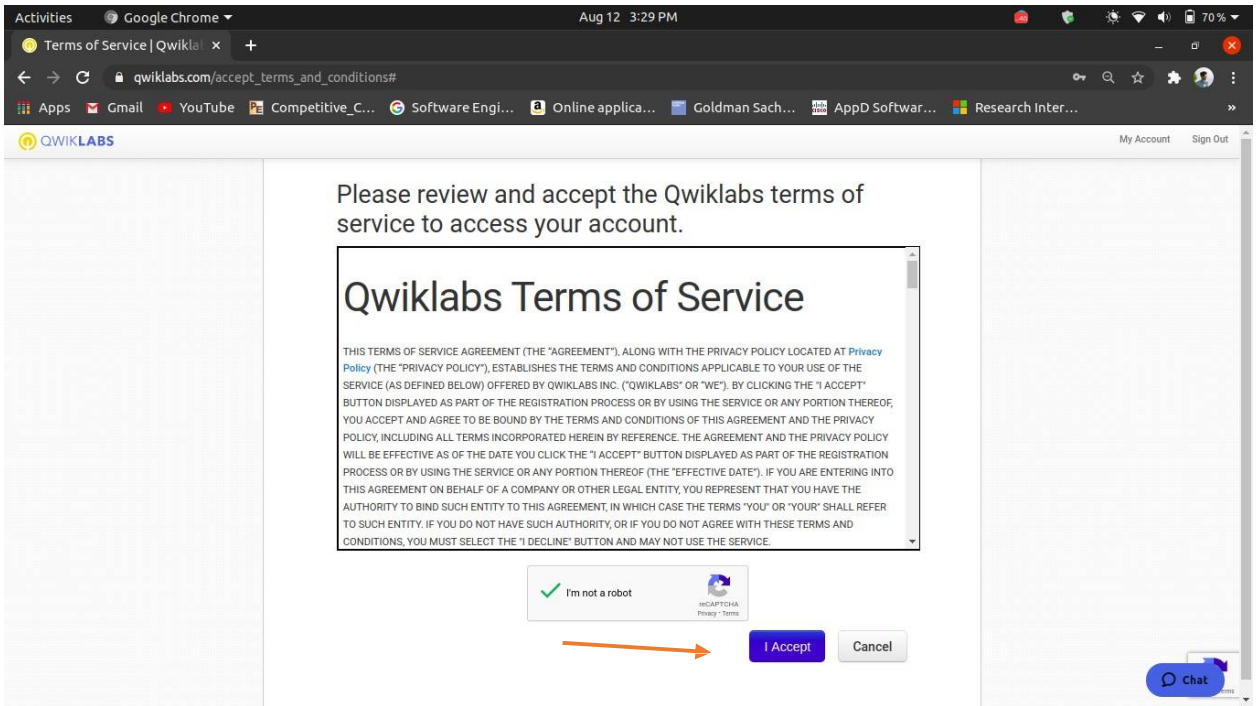
SignUp using your personal gmail account Click “signin with Google”



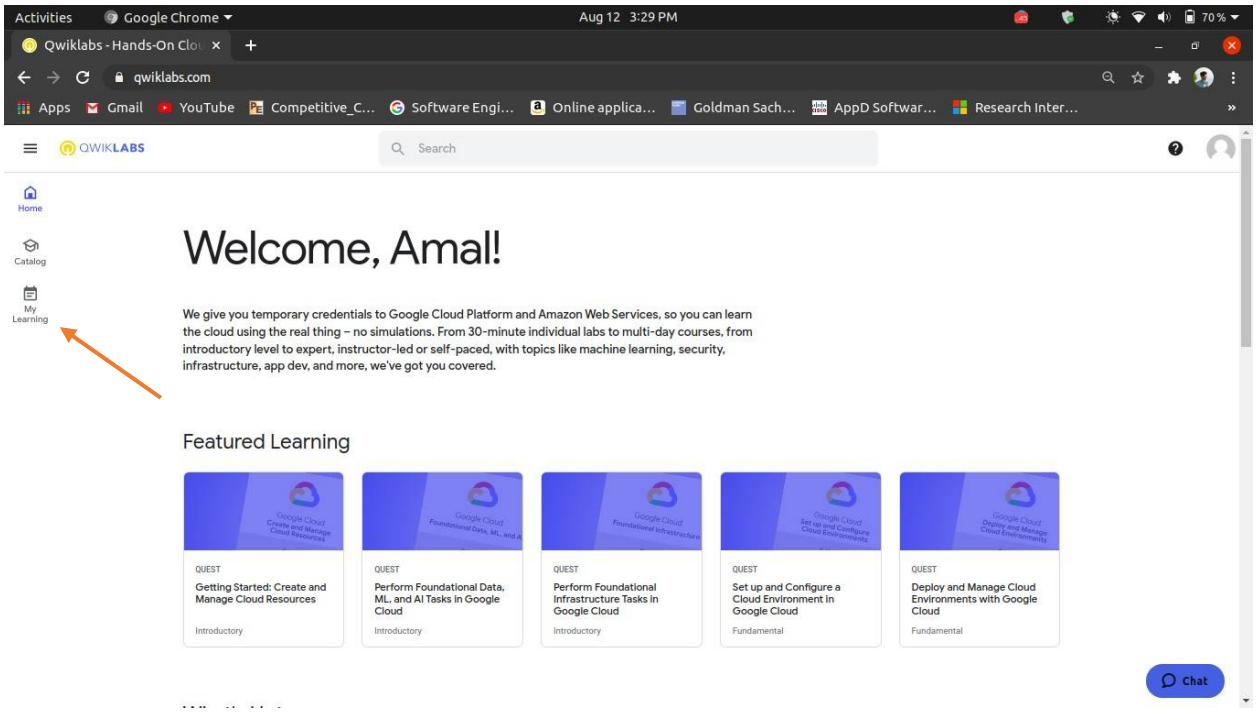
Give your Email ID and Password then click next.



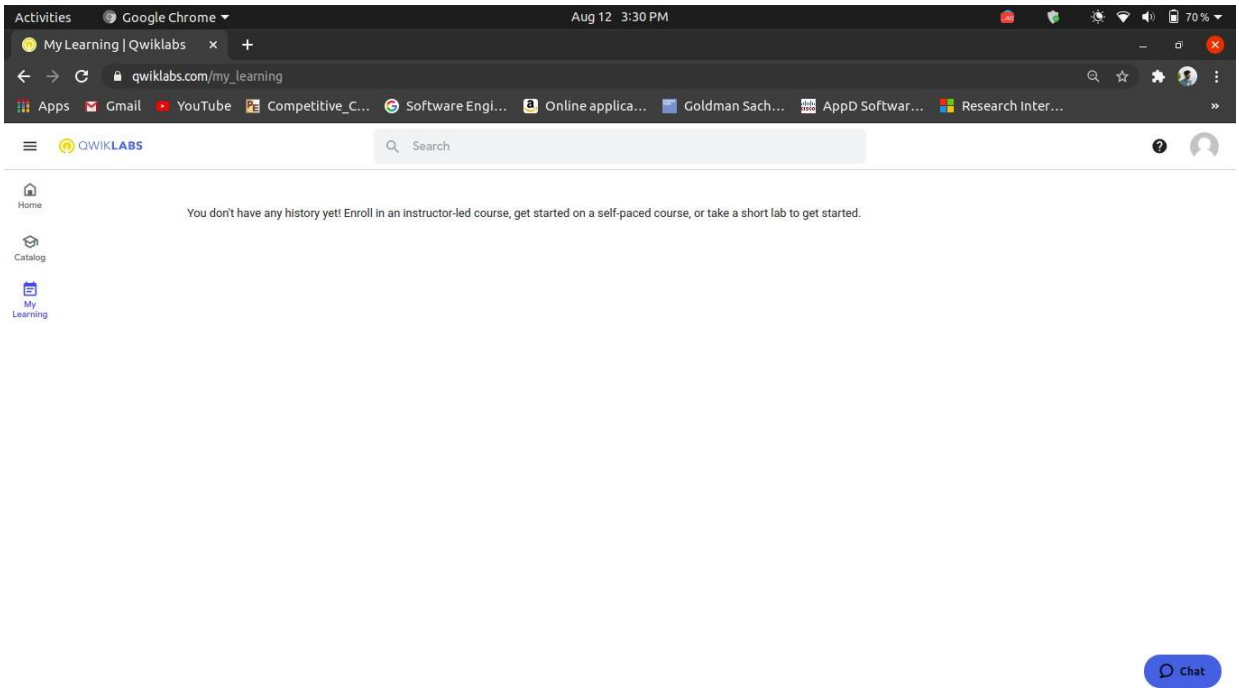
Accept the terms and conditions



On Left side click on My Learning tab

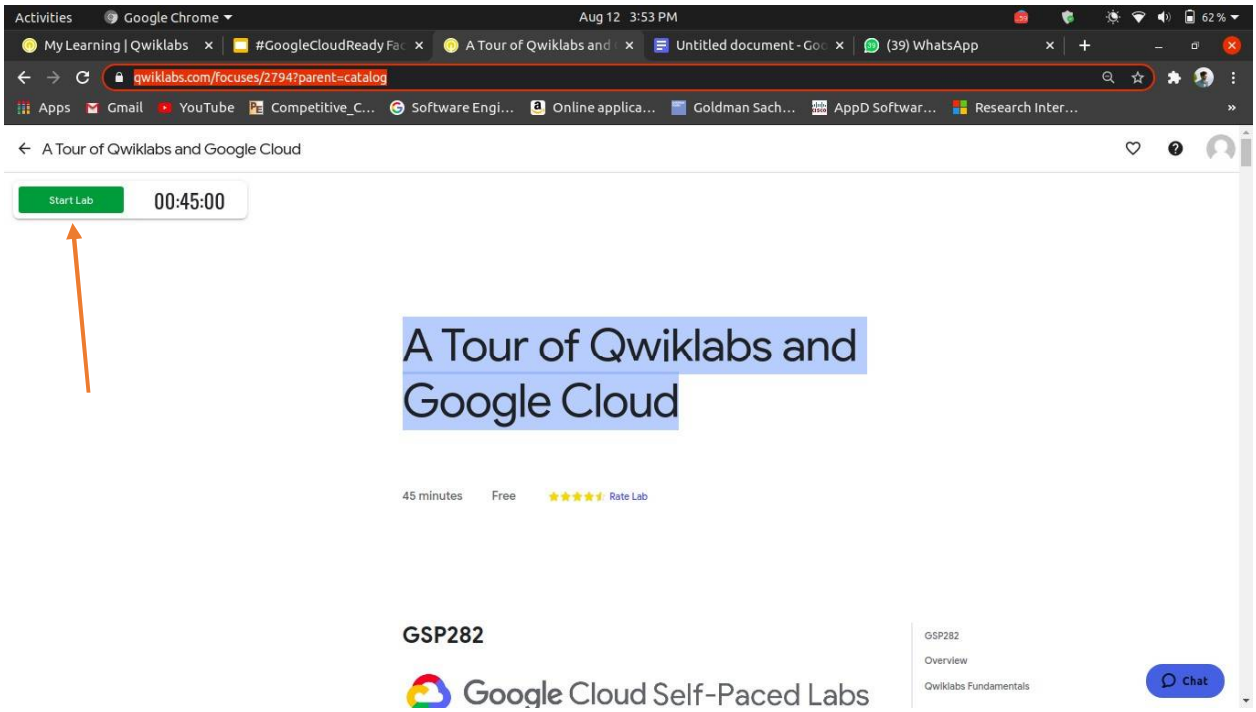


After clicking My Learning tab, you can see this page, then follow step 2 to create your Qwicklabs Public Profile URL.

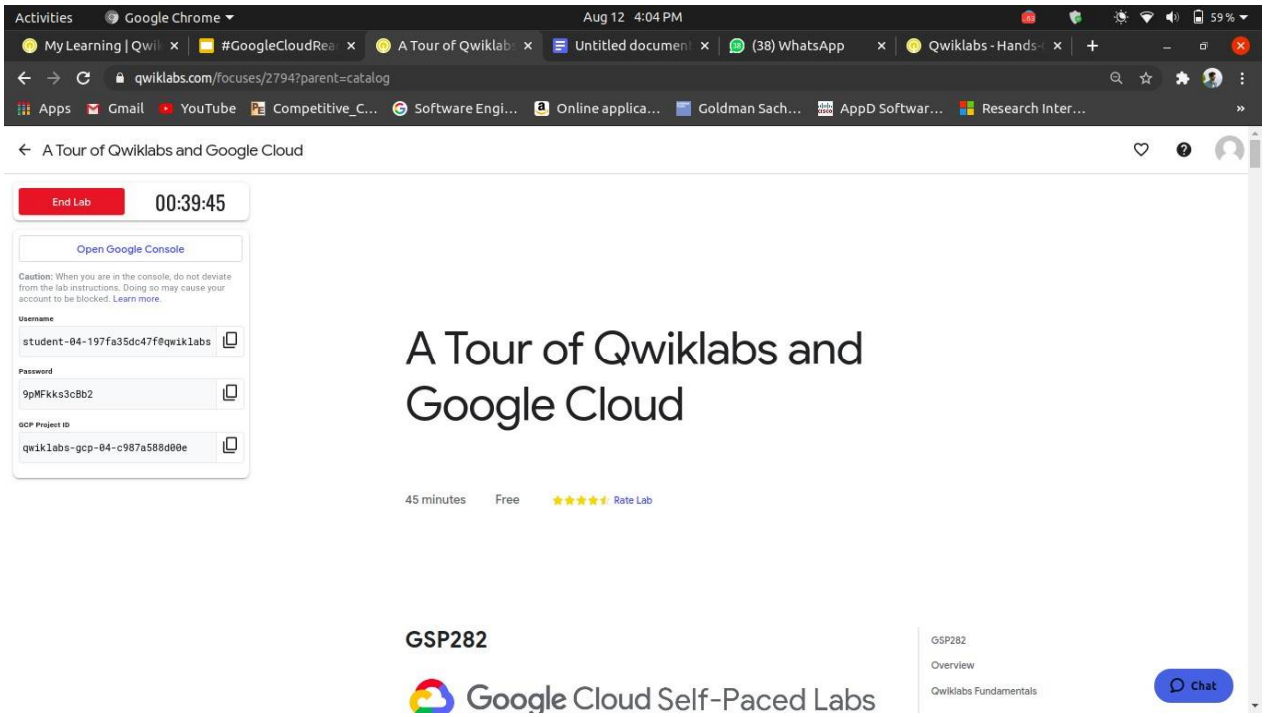


Step 2: Start you first Google Cloud Lab in order to get your qwicklab lab Public URL. Just start the lab and end the lab after **5 mins**.

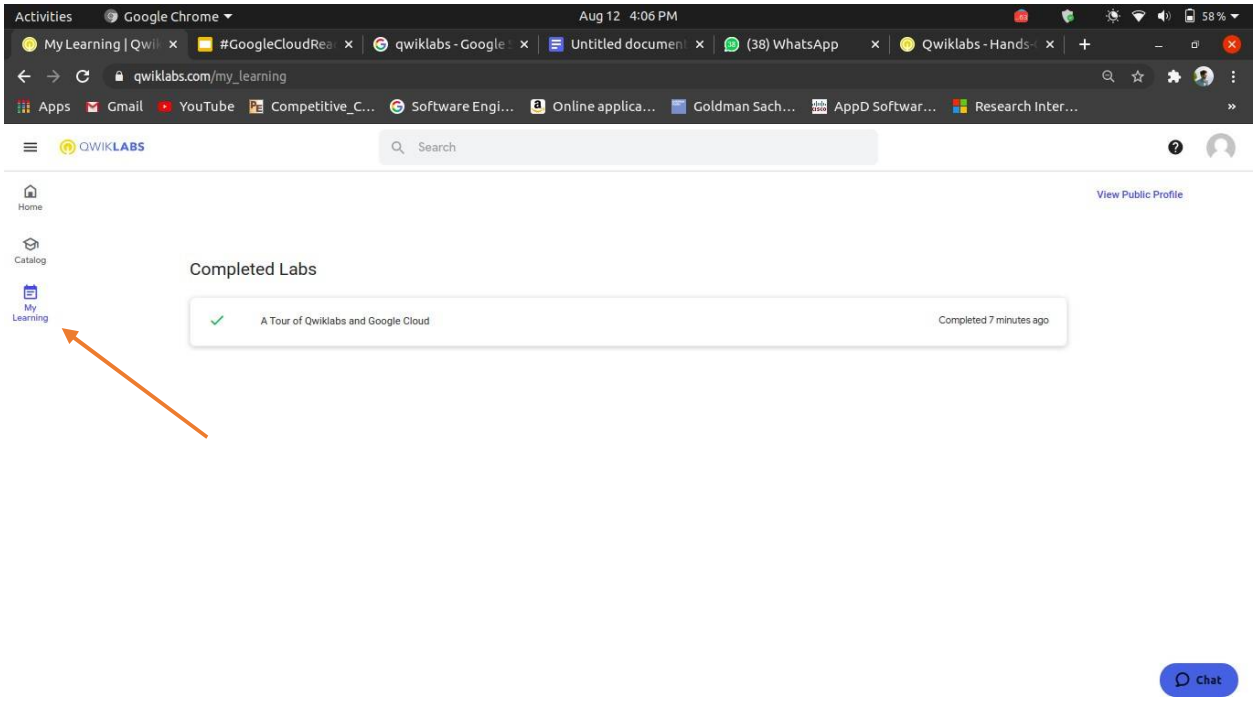
Lab Link is provided: https://www.qwiklabs.com/focuses/2794?parent=catalog



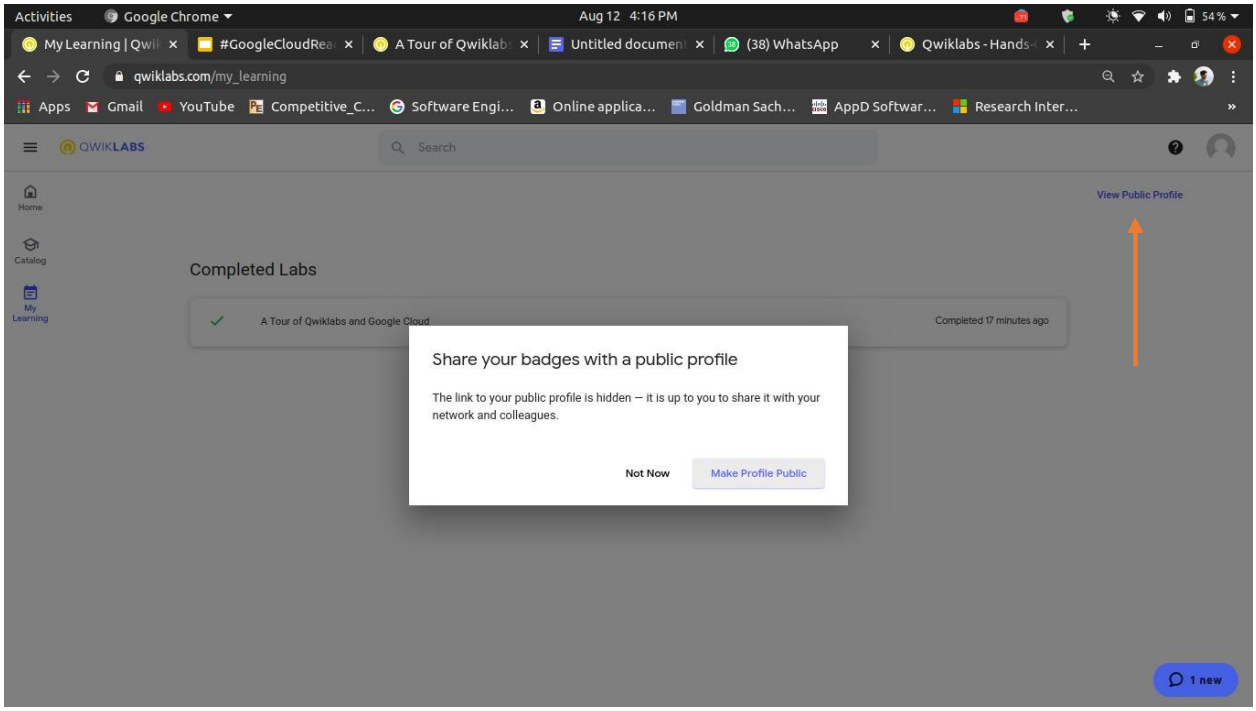
End Lab After 5 mins. [important]



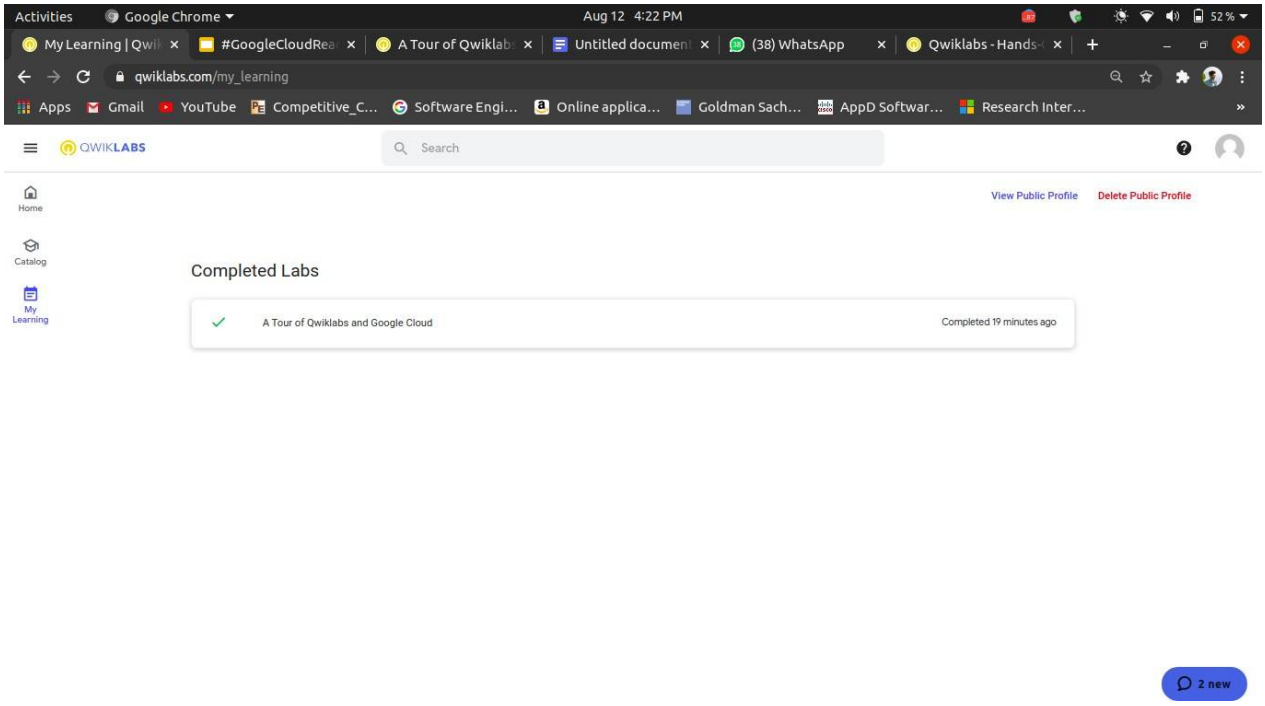
After ending the lab and Press back navigation icon, then you returned to your Qwiklabs page, and from there you again click “My Learning” tab then you can see the below page.



After it click on View Public Profile On top right side of window. Then you can see the below page. And Click on “Make Public Profile” button.



After it you can see a tab with View my public Profile, as shown in below pic on top right.



Then click on “View My Public Profile”, you can see this page and you need to copy this URL from search tab of browser in order to fill the registration form by adding your Public Profile URL
